

Burlington and Quincy Railroad Company obligating the latter to invest 50 per cent of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company.

The convertibility privilege in these bonds enables them to be exchanged for stock at par, at the option of the holder, at his option, a share in any excess of earnings over the interest obligation.

An exchange of Government securities for these bonds returns 91 per cent interest, instead of 5 per cent, which is all that Government securities pay at present, besides leaving an immediate gain of about 20 per cent in price for reinvestment.

The subscription price of the bonds is 90, and accrued interest in currency.

All marketable securities taken in exchange, free of commission and express charges.
